IACUC Protocol # _____

Appendix G: Conscious Physical Restraint

If conscious animals will be restrained (to minimize distress or pain associated with restraint, the period of restraint should be no longer than required to achieve the aims of the project):

1. Location where procedures will be conducted (building and room):

2. Describe how the animal will be restrained:

3. How long will they be restrained:

4. Describe how they will be acclimated to the restraint method:

5. Describe their care during this time, including how often they will be observed:

6. Should the animal show signs of distress or clinical abnormalities, what course of action will be taken:
