

### Appendix E – Use of Recombinant DNA/ Hazardous Chemicals/ Radiation on Externally Funded Projects

This form will be forwarded to the Office of Environmental Health & Safety (OEHS). If the project is funded, it is the PI's responsibility to consult with the OEHS to appropriately assess risk, precautions, and specific training needs.

If funded this project will involve: (please check all that apply)

Recombinant DNA

I have a letter from OEHS approving my use of rDNA

Radiation

I have a letter from OEHS approving my use of radiation

#### Hazardous Chemicals

Yes  No  a current written chemical hygiene plan is on file with the OEHS for the identified lab

Yes  No  I understand that there is a University wide hazardous waste collection program to appropriately manage laboratory wastes.
